

Kestrel 8 – 8W 100V Wall Mounted

High quality cabinet loudspeakers constructed from MDF to EEC regulations and updated to include block terminal guards and hanging block safety strap for added safety. Manufactured with attractive MDF profiles, the specially sculptured edges offer both style and protection not found in edge banded products. These loudspeakers, available in teak and white, provide good speech and music reproduction and each loudspeaker comes complete with a self-levelling wall bracket. All units have been designed to accommodate an add-on volume control which can be fitted before despatch if required, or supplied separately.
